ACCELERATORS
Measurement of neutron leakage spectra at a 500-MeV proton accelerator 287
Neutron dose equivalent outside the lateral shielding of an electron linear accelerator operating at 0.48-2.15 GeV 947
ACCIDENT ANALYSIS
Environmental radioactivity and dose evaluation in Taiwan after the Chernobyl accident 465
Radiological health effects models for nuclear power plant accident consequence analysis 397
Role of the public sector in prevention and management of radiation accidents 345
ACCIDENTS, LASER
A laser radiation occupational health standard for the People's Republic of China 725
Clinical observations of six cases of laser injury to the eye 705
Clinical, pathological and photochemical studies of laser injury of the retina 643
Experimental studies of the injurious effects of Q-switched Nd:YAG lasers and their outdoor applications 647
Ocular injuries from accidental laser exposure 711
Visual functional changes associated with low-level light effects 657
ACCIDENTS, REACTOR
Artificial radioactivity in the fuel peat and peat ash in Finland after the Chernobyl accident 451
Cesium-137, ^{134}Cs and ^{110m}Ag in lambs grazing pasture in NE Scotland contaminated by Chernobyl fallout 459
Chernobyl fallout on alpine glaciers 27
Chernobyl radioactivity in Turkish tea 97
Chernobyl: The Real Story 970
Nuclear Accidents and Epidemiology 119
Radiocesium levels measured in breast milk one year after the reactor accident at Chernobyl 103
Transfer to milk of ^{131}I and ^{137}Cs released during the Chernobyl reactor accident 239
ACTINIDES
Chelation of ^{238}Pu(IV) in vivo by 3,4,3-LICAM(C): effects of ligand methylation and pH 839
AGRICULTURE
The accuracy of some simple models for predicting particulate interception and retention in agricultural systems 441
ALGORITHM
A microcomputer algorithm for solving first-order compartmental models involving recycling 857
AMERICIUM-241
Calibration of a double phoswich detector assembly for estimation of homogeneously or inhomogeneously distributed ^{241}Am and/or ^{239}Pu in untreated fecal samples 361
Determining the ratio of ^{239}Pu to ^{241}Am in wounds by measuring the L gamma x-rays with a Si(Li) detector 249

ATOMIC BOMB SURVIVORS
Symptomatology of acute radiation effects in humans after exposure to doses of 0.5-30 Gy 821
ATTENUATION
An empirical model for x-ray attenuation in Pb and mild steel 943
AUTORADIOGRAPHY
Quantitative scanning electron microscopic autoradiography of inhaled $^{239}PuO_2$ 321

BIOASSAY
An inexpensive and practical ambient-temperature vacuum still for bioassays 355
Bioassay alpha spectrometry: energy resolution as a function of sample source preparation and counting geometry 71
BOOK REVIEW
Advances in Radiation Biology: Vol. 12 577
Basic Radiation Protection Technology, by Daniel A. Gollnick 575
Discovering Alvarez 379
Exposure of the Population in the United States and Canada from Natural Background Radiation 259
Imaging Techniques in Biology and Medicine 576
Improving Dialogue with Communities 575
Ionizing Radiation: Protection and Dosimetry 259
Neptunium: Radiation Protection Guidelines 576
Nuclear Accidents and Epidemiology 119
Nuclear Energy 969
Radiochemical Neutron Activation Analysis for 36 Elements in Geological Material 578
Radiochemistry of Carbon, Nitrogen and Oxygen 577
Use of Laboratory Animals in Biomedical and Behavioral Research 968
Would the Insects Inherit the Earth? and Other Subjects of Concern to Those Who Worry About Nuclear War 379
BRACHYTHERAPY
Reducing radiation from brachytherapy patients with a cost-effective bedshield 939
BREMSSTRAHLUNG
Health physics measurements on Princeton tokamaks 1977-1987 915
BUILDING MATERIALS
Estimation of indoor ^{222}Rn from concrete 107

CALIBRATION
Calibration of a double phoswich detector assembly for estimation of homogeneously or inhomogeneously distributed ^{241}Am and/or ^{239}Pu in untreated fecal samples 361
CANCER
Cancer mortality around La Hague nuclear facilities 875
Correction to BEIR IV report 256
Is ionizing radiation regulated more stringently than chemical carcinogens? 527
Mortality of workers at the Hanford Site: 1945-1981 11
New data inconsistent with 'scientific consensus' on low-level radiation cancer risks 961
Peer review and scientific consensus in radiation cancer assessment 959

CANCER (continued)
Radiation cancer risks: who is ordained to speak for science? 958
The effect of dose rate on radiation injury 933
CARBON
Radiochemistry of Carbon, Nitrogen and Oxygen 577
CARCINOGENESIS
Comment on 'A histologic study of the influence of cigarette smoking in suppressing Rn daughter carcinogenesis in dogs' 255
Radon progeny exposure and lung cancer risk in New Mexico U miners: a case-control study 415
Reply to Dr. Archer's Comment on 'A histologic study of the influence of cigarette smoking in suppressing Rn daughter carcinogenesis in dogs' 256
Reply to Morgan: exaggeration of radiation risk is a disservice to environmental protection 964
CATARACTS
Ultraviolet-induced photochemical damage in ocular tissues 571
CATECHOLATES
Chelation of $^{238}Pu(IV)$ *in vivo* by 3,4,3-LICAM(C): effects of ligand methylation and pH 839
CENTRAL NERVOUS SYSTEM
Microwave attentuation of ethanol-induced interactions with noradrenergic neurotransmitter systems 767
Microwave effects on the central nervous system--a study of radar mechanics 777
CESIUM
The biological half-time of radioactive Cs in poikilothermic and homeothermic animals 473
CESIUM-134
Cesium-137, ^{134}Cs and ^{110m}Ag in lambs grazing pasture in NE Scotland contaminated by Chernobyl fallout 459
CESIUM-137
Cesium-137 levels in breast milk and placentae after fallout from the reactor accident at Chernobyl 245
Cesium-137, ^{134}Cs and ^{110m}Ag in lambs grazing pasture in NE Scotland contaminated by Chernobyl fallout 459
Migration of radionuclides controlled by several different migration mechanisms through a sandy soil layer 47
Transfer to milk of ^{131}I and ^{137}Cs released during the Chernobyl reactor accident 239
CHELATION
Essential trace metal concentrations in beagle liver and bone tissue after prolonged Zn-DTPA treatment 223
CHERNOBYL
Artificial radioactivity in the fuel peat and peat ash in Finland after the Chernobyl accident 451
Cesium-137 levels in breast milk and placentae after fallout from the reactor accident at Chernobyl 245
Cesium-137, ^{134}Cs and ^{110m}Ag in lambs grazing pasture in NE Scotland contaminated by Chernobyl fallout 459
Chernobyl fallout on alpine glaciers 27
Chernobyl radioactivity in Turkish tea 97
Chernobyl: The Real Story 970
Nuclear Accidents and Epidemiology 119

CHERNOBYL (continued)
Radiocesium levels measured in breast milk one year after the reactor accident at Chernobyl 103
Symptomatology of acute radiation effects in humans after exposure to doses of 0.5-30 Gy 821
Transfer to milk of ^{131}I and ^{137}Cs released during the Chernobyl reactor accident 239
CHINA, PEOPLE'S REPUBLIC OF
Dose levels of medical exposure from diagnostic x-ray procedures in Beijing, China 957
CIGARETTES
Comment on 'A histologic study of the influence of cigarette smoking in suppressing Rn daughter carcinogenesis in dogs' 255
Correction to BEIR IV report 255
Radon progeny exposure and lung cancer risk in New Mexico U miners: a case-control study 415
Reply to Dr. Archer's Comment on 'A histologic study of the influence of cigarette smoking in suppressing Rn daughter carcinogenesis in dogs' 256
COBALT-60
Migration of radionuclides controlled by several different migration mechanisms through a sandy soil layer 47
COMPUTER CALCULATIONS
A microcomputer algorithm for solving first-order compartmental models involving recycling 857
CONTAMINATION
Effect of smear method on detection of ^{99m}Tc radiopharmaceuticals 543
Reply to 'Use of liquid vs capsule form of ^{131}I' 963
Use of liquid vs capsule form ^{131}I 963
CONVERSION FACTOR
Estimation of the mean organ doses and the effective dose equivalent from the rando phantom measurements 111
CORNEAS, ANIMAL
Epithelial damage in rabbit corneas exposed to CO_2 laser radiation 85
CORRECTIONS
Correction for: A simple approximation for estimating centerline gamma absorbed dose rates due to a continuous Gaussian plume. Health Phys. 53:143-146, 1987. 974
Correction for: Hazards assessment of worst case transportation accidents involving typical radioactive material shipments. Health Phys. 55:963-983; 1988. 974
Correction for: Radiation safety in commercial air traffic: a need for further study. Health Phys. 55:1001-1003; 1988. 973
COUNTING EFFICIENCY
Bioassay alpha spectrometry: energy resolution as a function of sample source preparation and counting geometry 71
Usefulness of water-soluble paper for smear test of low-energy beta- and gamma-emitters using a liquid scintillation technique 367

DATA RECORDING
Improved cassette recording of multichannel analyzer data 561

DETECTOR, SILICON
Determining the ratio of ^{239}Pu to ^{241}Am in wounds by measuring the L gamma x-rays with a Si(Li) detector 249
DIAGNOSTIC RADIOLOGY
A plea for sensible film badge placement in diagnostic radiology 567
EDE for exposure with protective aprons 569
Influence of organs in the ICRP's remainder on effective dose equivalent computed for diagnostic radiation exposures 515
Monte Carlo Simulation in the Radiological Sciences 969
DIFFUSION
Experimental measurements of the diffusion coefficient of ^{212}Pb 309
DNA
Advances in Radiation Biology: Vol. 12 577
DOGS
Comment on 'A histologic study of the influence of cigarette smoking in suppressing Rn daughter carcinogenesis in dogs' 255
Essential trace metal concentrations in beagle liver and bone tissue after prolonged Zn-DTPA treatment 223
Reply to Dr. Archer's Comment on 'A histologic study of the influence of cigarette smoking in suppressing Rn daughter carcinogenesis in dogs' 256
The influence of age at exposure on the concentrations of ^{239}Pu in beagle gonads 485
DOSE
Nuclear medicine staff and patient doses in Manitoba (1981-1985) 277
DOSE DISTRIBUTION
Some effects of radiation dosimetry errors on an estimated dose-response relationship 219
DOSE EQUIVALENT
Changes in per capita and collective dose equivalent due to natural radiation in Taiwan (1950-1983) 201
Doses to patients from dental radiology in France 903
Influence of organs in the ICRP's remainder on effective dose equivalent computed for diagnostic radiation exposures 515
Neutron dose equivalent outside the lateral shielding of an electron linear accelerator operating at 0.48-2.15 GeV 947
Radon versus Rn daughters 229
DOSE EQUIVALENT, EFFECTIVE
A plea for sensible film badge placement in diagnostic radiology 567
EDE for exposure with protective aprons 569
Estimation of the mean organ doses and the effective dose equivalent from the rando phantom measurements 111
Use of effective dose equivalent for external radiation exposures 570
DOSE, ABSORBED
Estimation of the quality factor on the basis of multi-event microdosimetric distributions 885
Order of magnitude absorbed dose reductions in cephalometric radiography 533
Radiation Dose to Patients from Radiopharmaceuticals 967
Technique-dependent decrease in thyroid absorbed dose for dental radiography 893
DOSE, COLLECTIVE
Changes in per capita and collective dose equivalent due to natural radiation in Taiwan (1950-1983) 201

DOSE, COLLECTIVE (continued)
Doses to patients from dental radiology in France 903
DOSE, INTERNAL RADIATION
Thallium-201 in human milk: Observations and radiological consequences 539
DOSE, MAXIMUM PERMISSIBLE
Hormesis - a dream come true! 117
DOSE, MINIMUM REQUIRED
Hormesis - a dream come true! 117
DOSE, ORGAN
Estimation of the mean organ doses and the effective dose equivalent from the rando phantom measurements 111
DOSE, POPULATION
Dose levels of medical exposure from diagnostic x-ray procedures in Beijing, China 957
Environmental radioactivity and dose evaluation in Taiwan after the Chernobyl accident 465
DOSE-MODIFICATION FACTOR
Dose-modification factor for accumulated dose to cell nucleus due to the protein-bound ^{3}H 869
DOSIMETRY
Accidental CT scanning without Al filtration and its dosimetry 253 dosimetry
An automated dosimetry system for microwave and thermal exposure of biological samples in vitro 303
Ionizing Radiation: Protection and Dosimetry 259
Mortality and career radiation doses for wokers at a commercial nuclear power plant: feasibility study 139
Patient Dosimetry Techniques in Diagnostic Radiology 968
Radiation Dose to Patients from Radiopharmaceuticals 967
Thallium-201 in human milk: Observations and radiological consequences
DOSIMETRY, ERRORS
Some effects of radiation dosimetry errors on an estimated dose-response relationship 219
DOSIMETRY, GAMMA
The effect of dose rate on radiation injury 933
DOSIMETRY, NEUTRON
Practical neutron dosimetry with superheated drops 79
DOSIMETRY, PERSONNEL
EDE for exposure with protective aprons 569
Nuclear medicine staff and patient doses in Manitoba (1981-1985) 277
DOSIMETRY, THERMOLUMINESCENT
Measuring the skin dose from radioactively contaminated gold rings using LiF thermoluminescent powder 547

E-NOTATION
Reply to Fisher's comment: 'Standard for expression of powers of 10' 377
EFFECTS, BIOLOGICAL
A laser radiation occupational health standard for the People's Republic of China 725
Clinical observations of six cases of laser injury to the eye 705
Clinical, pathological and photochemical studies of laser injury of the retina 643

EFFECTS, BIOLOGICAL (continued)
Damage criteria for determining microwave exposure 781
Damage thresholds of skin irradiated by ultraviolet lasers 683
Evaluation of ocular protection filters in field situations 729
Experimental studies of the injurious effects of Q-switched Nd:YAG lasers and their outdoor applications 647
Glare in aviation 665
Laser output characteristics 605
Laser radiation tissue interaction 613
Laser reflections from relatively flat specular surfaces 753
Measurements of laser eye protective filters 741
Microwave attentuation of ethanol-induced interactions with noradrenergic neurotransmitter systems 767
Microwave effects on the central nervous system--a study of radar mechanics 777
Near infrared laser ocular bioeffects 631
New biological phenomena associated with laser radiation 687
New philosophies in control of laser hazards in the outdoors 749
Non-ionizing radiation in outdoor applications 603
Ocular injuries from accidental laser exposure 711
Photobiology of low-power laser effects 691
Preliminary notes on vulnerability of the retina to injury from peripheral laser exposure conditions 653
Radio-microwave interactions with biological materials 759
Radiometry and laser safety standards 717
Retinal damage from intense visible light 625
Retinal damage thresholds from single-pulse laser exposures in the visible spectrum 637
Structural aspects of laser-induced damage and their functional implications 617
Ultraviolet-induced photochemical damage in ocular tissues 671
Visual functional changes associated with low-level light effects 657
Vulnerability of the retina to injury from a military ruby rangefinder at battlefield distances 743
ELECTROMAGNETIC FIELDS
Exposure to electromagnetic fields in arc welding 297
ELECTRON STORAGE RING
Measurements of ozone, oxides of N and nitric acid produced in the tunnel of a high-energy electron storage ring 953
ELECTRONS
Energy spectra of electrons and positrons produced in semi-infinite and infinite water phantoms irradiated by photons with energies up to 1 GeV 493
EMISSIONS, ATMOSPHERIC
Chernobyl radioactivity in Turkish tea 97
Sources for Pu in near surface air 55
EPIDEMIOLOGY
Nuclear Accidents and Epidemiology 119
ERRATA
Correction for: Hazards assessment of worst case transportation accidents involving typical radioactive material shipments. Health Phys. 55:963-983; 1988. 974
Correction for: Radiation safety in commercial air traffic: a need for further study. Health Phys. 55:1001-1003; 1988. 973

ERRATA (continued)
Correction for: A simple approximation for estimating centerline gamma absorbed dose rates due to a continuous Gaussian plume. Health Phys. 53:143-146, 1987. 974
EXPOSURE
Symptomatology of acute radiation effects in humans after exposure to doses of 0.5-30 Gy 821
EXPOSURE, OCCUPATIONAL
Correlation between airborne U exposure and U urinalysis results at Bear Creek Uranium 195
EDE for exposure with protective aprons 569
Exposure to electromagnetic fields in arc welding 297
Microwave effects on the central nervous system--a study of radar mechanics 777
Mortality and career radiation doses for wokers at a commercial nuclear power plant: feasibility study 139
Mortality of workers at the Hanford Site: 1945-1981 11
NRC, NCRP, ICRP and recommendations on prenatal radiation exposure 572
Particle size distributions for airborne radionuclides in Ginna steam generator work environments 233
Personnel monitoring in diagnostic radiology: revisited--again! 565
EXPOSURE, RADIATION
Environmental Radon 970
Is ionizing radiation regulated more stringently than chemical carcinogens? 527
NRC, NCRP, ICRP and recommendations on prenatal radiation exposure 572
Patient Dosimetry Techniques in Diagnostic Radiology 968
Warning from the A-Bomb study about low and slow radiation exposures 117
EYE PROTECTION
A laser radiation occupational health standard for the People's Republic of China 725
Clinical observations of six cases of laser injury to the eye 705
Clinical, pathological and photochemical studies of laser injury of the retina 643
Experimental studies of the injurious effects of Q-switched Nd:YAG lasers and their outdoor applications 647
Glare in aviation 665
Laser radiation tissue interaction 613
Laser reflections from relatively flat specular surfaces 753
Measurements of laser eye protective filters 741
New biological phenomena associated with laser radiation 687
New philosophies in control of laser hazards in the outdoors 749
Ocular injuries from accidental laser exposure 711
Photobiology of low-power laser effects 691
Radio-microwave interactions with biological materials 759
Radiometry and laser safety standards 717
Retinal damage from intense visible light 625
Ultraviolet-induced photochemical damage in ocular tissues 671
Visual functional changes associated with low-level light effects 657
Vulnerability of the retina to injury from a military ruby rangefinder at battlefield distances 743

FALLOUT
Artificial radioactivity in the fuel peat and peat ash in Finland after the Chernobyl accident 451
Cesium-137 levels in breast milk and placentae after fallout from the reactor accident at Chernobyl 245
Cesium-137, ^{134}Cs and ^{110m}Ag in lambs grazing pasture in NE Scotland contaminated by Chernobyl fallout 459
Chernobyl fallout on alpine glaciers 27
Chernobyl radioactivity in Turkish tea 97
Radiocesium levels measured in breast milk one year after the reactor accident at Chernobyl 103
Sources for Pu in near surface air 55
FILM BADGE
A plea for sensible film badge placement in diagnostic radiology 567
EDE for exposure with protective aprons 569
Use of effective dose equivalent for external radiation exposures 570
FOOD CHAIN
Health implications of radionuclide levels in cattle raised near U mining and milling facilities in Ambrosia Lake, New Mexico 327
FORUM

OXYGEN
Radiochemistry of Carbon, Nitrogen and Oxygen 577
OZONE
Measurements of ozone, oxides of N and nitric acid produced in the tunnel of a high-energy electron storage ring 953

PATIENT PROTECTION
Protection of the Patient in Nuclear Medicine 967
Reducing radiation from brachytherapy patients with a cost-effective bedshield 939
PEER REVIEW
Peer review and scientific consensus in radiation cancer assessment 959
Reply to Morgan: exaggeration of radiation risk is a disservice to environmental protection 964
PHANTOM
Energy spectra of electrons and positrons produced in semi-infinite and infinite water phantoms irradiated by photons with energies up to 1 GeV 493
Estimation of the mean organ doses and the effective dose equivalent from the rando phantom measurements 111
PHOSPHORS
Preparation and performance of a $CaSO_4$:Dy,Tm thermoluminescent phosphor for long-term gamma measurements 551

PHOTON
Energy spectra of electrons and positrons produced in semi-infinite and infinite water phantoms irradiated by photons with energies up to 1 GeV 493
PLUTONIUM
Chelation of ^{238}Pu(IV) in vivo by 3,4,3-LICAM(C): effects of ligand methylation and pH 839
Sources for Pu in near surface air 55
The accuracy of some simple models for predicting particulate interception and retention in agricultural systems 441
PLUTONIUM-239
Calibration of a double phoswich detector assembly for estimation of homogeneously or inhomogeneously distributed ^{241}Am and/or ^{239}Pu in untreated fecal samples 361
Determining the ratio of ^{239}Pu to ^{241}Am in wounds by measuring the L gamma x-rays with a Si(Li) detector 249
Quantitative scanning electron microscopic autoradiography of inhaled $^{239}PuO_2$ 321
The influence of age at exposure on the concentrations of ^{239}Pu in beagle gonads 485
Utilization of femoral head for estimating the skeletal burden of U and Pu in humans 341
PLUTONIUM-240
Utilization of femoral head for estimating the skeletal burden of U and Pu in humans 341
POLONIUM
Concentrations of U and Po in animal feed supplements in poultry meat and in eggs 315
POSITRONS
Energy spectra of electrons and positrons produced in semi-infinite and infinite water phantoms irradiated by photons with energies up to 1 GeV 493
PUBLIC INFORMATION

Technique-dependent decrease in thyroid absorbed dose for dental radiography 893
TOKAMAK
Health physics measurements on Princeton tokamaks 1977-1987 915
TRANSFER COEFFICIENTS
Concentrations of U and Po in animal feed supplements in poultry meat and in eggs 315
TRANSPORT, ENVIRONMENTAL
Cesium-137 levels in breast milk and placentae after fallout from the reactor accident at Chernobyl 245
Cesium-137, ^{134}Cs and ^{110m}Ag in lambs grazing pasture in NE Scotland contaminated by Chernobyl fallout 459
Chernobyl fallout on alpine glaciers 27

TRANSPORT, ENVIRONMENTAL (continued)
Chernobyl radioactivity in Turkish tea 97
Concentrations of U and Po in animal feed supplements in poultry meat and in eggs 315
Effects of vegetation, a clay cap and environmental variables on ^{222}Rn fluence rate from reclaimed U mill tailings 431
Migration of radionuclides controlled by several different migration mechanisms through a sandy soil layer 47
Radiocesium levels measured in breast milk one year after the reactor accident at Chernobyl 103

TRITIUM
Dose-modification factor for accumulated dose to cell nucleus due to the protein-bound ^{3}H 869
Health physics measurements on Princeton tokamaks 1977-1987 915

TUMOR
Cancer mortality around La Hague nuclear facilities 875
Warning from the A-Bomb study about low and slow radiation exposures 117

ULTRASOUND
Imaging Techniques in Biology and Medicine 576

UNITED KINGDOM
Cesium-137, ^{134}Cs and ^{110m}Ag in lambs grazing pasture in NE Scotland contaminated by Chernobyl fallout 459

UNITED STATES
Exposure of the Population in the United States and Canada from Natural Background Radiation, 259

UPTAKE
A review of the dietary uptake of Th 165

UPTAKE, PLANT
Effects of vegetation, a clay cap and environmental variables on ^{222}Rn fluence rate from reclaimed U mill tailings 431

URANIUM
Concentrations of U and Po in animal feed supplements in poultry meat and in eggs 315
Correlation between airborne U exposure and U urinalysis results at Bear Creek Uranium 195
Effects of vegetation, a clay cap and environmental variables on ^{222}Rn fluence rate from reclaimed U mill tailings 431
Utilization of femoral head for estimating the skeletal burden of U and Pu in humans 341

URANIUM MINES
Health implications of radionuclide levels in cattle raised near U mining and milling facilities in Ambrosia Lake, New Mexico 327

URANIUM-238
Health implications of radionuclide levels in cattle raised near U mining and milling facilities in Ambrosia Lake, New Mexico 327
Influence of the subsoil geology and construction technique on the indoor air ^{222}Rn levels in 80 houses of the central Swiss alps 423

URINALYSIS
Correlation between airborne U exposure and U urinalysis results at Bear Creek Uranium 195

WASTE DISPOSAL
Advances in Radiation Biology: Vol. 13 577
Recommendations for radioactive waste reduction in biomedical/academic institutions 571
WASTE MANAGEMENT
Recommendations for radioactive waste reduction in biomedical/academic institutions 571
WEAPONS
Would the Insects Inherit the Earth? and Other Subjects of Concern to Those Who Worry About Nuclear War 379
WEAPONS, NUCLEAR
Glare in aviation 665
WIRE SCREEN, THEORY
On improving the validity of wire screen 'unattached' fraction Rn daughter measurements 189

X RAYS
An empirical model for x-ray attenuation in Pb and mild steel 943
Comment on 'Marble attenuation characteristics for diagnostic x rays' 377
Doses to patients from dental radiology in France 903
Shielding requirements for constant-potential diagnostic x-ray beams determined by a Monte Carlo calculation 151
Technique-dependent decrease in thyroid absorbed dose for dental radiography 893
X-RAY EXAMINATION
Dose levels of medical exposure from diagnostic x-ray procedures in Beijing, China 957
X-RAY IMAGING
Order of magnitude absorbed dose reductions in cephalometric radiography 533
Zn-DTPA
Essential trace metal concentrations in beagle liver and bone tissue after prolonged Zn-DTPA treatment 223
